USING THIS GUIDE

THIS GUIDE INTRODUCES YOU TO OUR INVESTMENT PLANS

We simplified the process of investing. This guide opens you to a whole new world of unlimited opportunities accessing multiple financial instruments and building portfolios with 360Forex. Go through the guide carefully and select the investment plan that suits your financial dream and budget.

ABOUT THE COMPANY

360FOREX is a digital multi-asset investment company serving over 1,000 investment indexes to international investors. Investments are made through trading funds, stocks, commodities and other digital assets using our in-house developed cutting-edge technology trading systems with lower risk and higher ROI. We embraced technology before many other investment companies.

With our technology, investors are only a click away from opening and winning trades as well as managing entire portfolios.

Our strong reputation precedes us across the entire investment sphere. With regular updates on our technology and financial instruments, as well as investor education, our investors stand to benefit seamlessly and are never in the dark about their funds. We're a company committed to reducing your investment costs and offering low cost fixed spreads on all assets.

On 360FOREX' COINDEX 20

Growing incredibly in popularity in recent years, cryptocurrencies assets, such as Bitcoin and Ethereum, have become the go-to investment option for many investors and traders. With an ever-growing selection of cryptos added to our COINDEX 20 and a unique crypto portfolio investment strategy which offers exposure to the market and is managed by 360FOREX investment team, 360FOREX' presents many options for those who wish to invest in the crypto market.

Crypto assets display extremely high volatility, and it is quite common to see double-digit percentage fluctuations in a single day. Bitcoin, which is the first and largest crypto, is considered to be the benchmark for this market, and other assets' charts often move in the same direction as Bitcoin. Investing in 360FOREX' crypto funds means you are investing in the underlying asset*, and the asset class is purchased via Bitcoin and traded held by 360FOREX on your behalf. These trades are unleveraged. Buying and selling the underlying assets are unregulated and have no investor protection, that's why we shield investors from the risk of loss through our funds

WHAT HAPPENS WHEN I INVEST?

360FOREX currently have lots of expert traders in her network that are constantly trading at real-time, helping investors secure profit on any investment of there choice.

When you invest, our expert traders do the dirty work for you (Guaranteed ROI after Trading).

Your investment alongside investments from other investors as at the time of your deposit will be allocated to a minimum of 5 Expert traders and account managers.

These expert traders uses sophisticated analytical A.I (Artificial Intelligence) tools and also our advance in-house developed cutting-edge trading method to place accurate trade with the most favorable trading strategy (longing, shorting, etc) that would yield the expected R.O.I (Returns On Investment) before the required life span of your investment plan elapses.

HOW DO I WITHDRAW MY EARNINGS?

Withdrawing your earnings is as easy as making your deposit. Your earnings will be displaying on your portfolio at real-time. This means you can be taking a look at your account from your mobile phone, iPad or laptop as your earnings accumulates. You will also learn from the platform. As soon as you are satisfied with the earnings or when your investment life span is completed, you can request for withdrawal of funds.

You will simply Click on the “Cash-out button” to request your earning. After this action, your earning will be deposited in your 360FOREX Available Balance, which you can in-turn transfer out, through any of our various withdrawal methods.

Below are available list of withdrawal methods:

- ✓ Cryptocurrency Wallet Address (Bitcoin, Ethereum, Bitcoin Cash...):
- ✓ Bank Account
- ✓ 360FOREX Card
- ✓ Other 360FOREX Account

WHAT HAPPENS WHEN THE MARKET IS NOT FAVORABLE?

It might interest you to know that in 360FOREX, we rarely experience unfavorable trades regardless of whether the market is Bullish, Bearish or Ranging.

Nevertheless, In times when our expert traders experience losses on trading due to unfavorable market, 360FOREX pay investors their R.O.I using profit from other investment (such as our mining farms, stocks, commodities, other digital assets and brokerage commission gathered from successful trade).

MINIMUM INVESTMENT AND EARNINGS

360Forex offer short-term trades and long-term trades

Short-Term Trades (10 Days – 15 Days)

The minimum investment for a short-term trade is 2,000 USD. This attracts an interest rate of 250%. i.e., an investor would earn about 5,500 USD ROI.

Long-Term Trades (90 Days and Above)

The minimum investment for a long-term trade is 10,000 USD. This attracts an interest rate of 21% daily. i.e., an investor would earn over 189,000 USD ROI.

NB: The higher you invest, the higher your interest rate which in-turns lead to more profits. Rollover is also available for short-term trades only.

BROKERAGE COMMISSION

360Forex charges investors within 12% to 16% brokerage commission of investor's earnings. The brokerage commission will be deducted from investors available balance as soon as the earnings has completely accumulated and investors had requested fund withdrawal.

Joining 360FOREX

The old way of joining an investment company required investors doing a lot of irrelevant and uninteresting paper work which would run into weeks, if not months and years.

We were irritated by that method and we revived things up to a whole new level. We not only reduced the process but also made it faster to build investment portfolios without being a Wall Street guru.
